

The International Association of Medical Science Educators (IAMSE) recently announced that **The Active Learning Manual** is now available for purchase and download through the IAMSE website.

IAMSE indicates that this manual is the “second in a series of how-to manuals to be produced by IAMSE, [ ] a compilation of teaching strategies in active learning to adapt to your own large group settings. Each chapter is a specific description of a strategy written by authors who are experienced in using the strategy in a classroom environment with students. The Manual chapters are designed to be accessible and practical to the reader. The Manual is edited by Alice Fornari and Ann Poznanski.”
